Re: Azopt  
Docket No. 98E-0837

#21

The Honorable Q. Todd Dickinson  
Director of U.S. Patent and Trademark Office  
Commissioner for Patents  
Box Pat. Ext.  
Washington, D.C. 20231

Dear Director Dickinson:

This is in regard to the patent term extension application for U.S. Patent No. 5,378,703 filed by Alcon Laboratories under 35 U.S.C. § 156. The patent claims the human drug product Azopt (brinzolamide), new drug application NDA 20-816.

In the January 27, 2000, issue of the *Federal Register* (65 Fed. Reg. 4435), the Food and Drug Administration published its determination of this product's regulatory review period, as required under 35 U.S.C. § 156(d)(2)(A). The notice provided that on or before July 25, 2000, 180 days after the publication of the determination, any interested person could file a petition with FDA under 35 U.S.C. § 156(d)(2)(B)(i) for a determination of whether the patent term extension applicant acted with due diligence during the regulatory review period.

The 180-day period for filing a due diligence petition pursuant to this notice has expired, and FDA has received no such petition. Therefore, FDA considers the regulatory review period determination to be final.

Please let me know if we can provide further assistance.

Sincerely yours,

Jane A. Axelrad  
Associate Director for Policy  
Center for Drug Evaluation and Research
